
**Fibre granules in small
PE-bags for
producing SMA**

TECHNOCEL® 1004 - G

This product, a further development of our well-proven **TECHNOCEL** - fibre will in future be delivered in small PE-bags.

A high-quality product with a lot of advantages:

- **Better homogeneous distribution in the mixer.**
 - **No formation of fibre-lumps in the asphalt mix.**
 - **Better handling because of a smaller packing volume.**
 - **Space-saving storage because of optimal use of pallets.**
-

With **TECHNOCEL® 1004 - G** you buy a safe product with good storage characteristics.
